USER CODEBOOK

1997/09/24

DETAILED DESCRIPTION OF VARIABLES

SEQNO SEQUENCE NUMBER

Field: 1 Position: 1-5 Format: I5

CONTENT	VALUE	SAMPLE	WEIGHTED
MINIMUM	1		
MAXIMUM	23251		
RANGE	23250	23129	0

INCLINIC CLINIC ATTENDED

Field: 2 Position: 6 Format: I1

CONTENT	CODE	SAMPLE	WEIGHTED
Clinic not attended	0	3034	2809479
Clinic attended	1	20095	16019724

WEIGHT VARIABLE: PWGTQ

QUESTION TEXT:

Was clinic attended?

COMMENTS:

Where clinic data was misplaced or never attended, all clinic data variables filled with 'variable unknown'

INCLINIC = 1 for all clinic attendees,

INCLINIC = 0 for all non attendees.

INBLOOD BLOOD SPECIMEN TAKEN

Field: 3 Position: 7 Format: I1

CONTENT	CODE	SAMPLE	WEIGHTED
No blood specimen	0	3728	1125735
Blood specimen	1	19401	17707482

WEIGHT VARIABLE: PWGTC

QUESTION TEXT:

Was a blood specimen taken?

DETAILED DESCRIPTION OF VARIABLES

INBLOOD BLOOD SPECIMEN TAKEN (continued)

COMMENTS:

Where blood specimen misplaced or sample was never collected,
all data variables filled with 'variable unknown'.

INBLOOD = 1 if blood data available

INBLOOD = 0 if blood data not available or specimen lost.

PROV PROVINCE

Field: 4 Position: 8-9 Format: I2

CONTENT	CODE	SAMPLE	WEIGHTED
Newfoundland	10	2394	371064
Prince Edward Island	11	2088	85583
Nova Scotia	12	2108	573155
New Brunswick	13	2093	486389
Quebec	24	2353	4999223
Ontario	35	2538	7092835
Manitoba	46	2766	752792
Saskatchewan	47	2158	657118
Alberta	48	2237	1658437

WEIGHT VARIABLE: PWGTQ

QUESTION TEXT:

Province

COMMENTS:

Coded according to Statistic Canada definitions.

AREA AREA DESIGNATION BASED ON 10,000+ POP

Field: 5 Position: 10 Format: I1

CONTENT	CODE	SAMPLE	WEIGHTED
Rural	1	7750	4276275
Urban	2	13271	13979773
Variable unknown	7 M	2108	573155

WEIGHT VARIABLE: PWGTQ

DETAILED DESCRIPTION OF VARIABLES

AREA AREA DESIGNATION BASED ON 10,000+ POP (continued)

SOURCE:

Recoded from area code in Provincial reference number together with other information (e.g. postal codes). Designation of urban/rural based on division into low and high population count (<10,000 and 10,000+) plus sampling design.

COVERAGE:

All subjects. Not available for NS at the present time.

QUESTION TEXT:

Area designation based on 10,000+ population

SEX SEX

Field: 6 Position: 11 Format: I1

CONTENT	CODE	SAMPLE	WEIGHTED
Male	1	11376	9310716
Female	2	11753	9518487

WEIGHT VARIABLE: PWGTQ

QUESTION TEXT:

Sex of respondent

DETAILED DESCRIPTION OF VARIABLES

GPAGE2 AGE GROUPED IN 10 YEARS (continued)

WEIGHT VARIABLE: PWGTQ

SOURCE:

Calculated from AGE

COVERAGE:

Home interview sample - all subjects.

QUESTION TEXT:

Age group of respondent (10 yr. intervals)

EDUCYRS YEARS OF EDUCATION

Field: 10 Position: 18-19 Format: I2

CONTENT	VALUE	SAMPLE	WEIGHTED
MEAN		12.00	12.68
MINIMUM	0		
MAXIMUM	21		
RANGE	21	17995	13033547
Variable unknown	97 M	5119	5752015
Not stated/refused	99 M	15	43641

WEIGHT VARIABLE: PWGTQ

COVERAGE:

Home interview sample - all subjects.

QUESTION TEXT:

What is the highest grade or year of school you have completed?

COMMENTS:

Sum of 'elementary/secondary' and 'college/university' years.

Values greater than 20 were capped at 21.

EDUC GROUPED EDUCATION

Field: 11 Position: 20 Format: I1

CONTENT	CODE	SAMPLE	WEIGHTED
Completed elementary school or less	1	1160	1133137
Some secondary schooling	2	7260	4616802
Secondary school completed	3	11072	9276227
University degree completed	4	3586	3742934
Not stated/refused	9 M	51	60103

DETAILED DESCRIPTION OF VARIABLES

EDUC GROUPED EDUCATION (continued)

WEIGHT VARIABLE: PWGTQ

SOURCE:

Calculated from EDUCYRS except for MAN and QUE, where coded from Q86 and Q202 respectively.

COVERAGE:

Home interview sample - all subjects.

QUESTION TEXT:

Highest level of education completed

COMMENTS:

If EDUCYRS 0-6 then EDUC = elementary or less
 If EDUCYRS 7-11 then EDUC = some secondary
 If EDUCYRS 12-15 then EDUC = secondary completed
 If EDUCYRS 16 or more then EDUC = university degree
 Else EDUC = not stated/refused.

INCOME INCOME LEVEL

Field: 12 Position: 21 Format: I1

WEIGHT VARIABLE: PWGTQ

SOURCE:

Systolic blood pressure reading prior to home questionnaire.

COVERAGE:

Home interview sample - all subjects.

QUESTION TEXT:

First systolic blood pressure reading.

COMMENTS:

Blood pressures measured following guidelines from the Canadian Coalition for High Blood Pressure (1988). Standard sphygmomanometers, 15-inch stethoscopes and appropriate size cuffs were used. The maximum inflation level was determined prior to the actual measurement of blood pressure. The first and fifth Korotkoff sounds were recorded for both the systolic and the diastolic pressures respectively. For sounds which continued to zero mm Hg the fourth Korotkoff sound was recorded.

BPD1 FIRST DIASTOLIC BLOOD PRESSURE READING

Field: 22 Position: 50-52 Format: I3

CONTENT	VALUE	SAMPLE	WEIGHTED
MEAN		76.86	77.29

HGTC CLINIC: HEIGHT IN CENTIMETRES

Field: 39 Position: 89-91 Format: I3

CONTENT	VALUE	SAMPLE	WEIGHTED
MEAN		168.38	168.92
MINIMUM	139		
MAXIMUM	191		
RANGE	52	19634	18195537
Variable unknown	997 M	3034	0
Recoded missing	998 M	333	422185
Not stated/refused	999 M	128	215496

WEIGHT VARIABLE: PWGTC

COVERAGE:

Clinic sample - all subjects.

DETAILED DESCRIPTION OF VARIABLES

HGTC CLINIC: HEIGHT IN CENTIMETRES (continued)

QUESTION TEXT:

Height in centimetres in clinic.

COMMENTS:

Height was measured against a walled tape measure, with participants standing without shoes on a hard surface. Values were recoded missing (code 998) for extreme 0.5% of subjects within each province. Where either HGTC or WGTC were recoded missing (code 998), both were recoded as missing, but the BMI was not altered. Values greater than 190 and less than 139 were capped at 191 and 139 unless already recoded 998 because of extreme height or weight.

WGTC CLINIC: WEIGHT IN KILOGRAMS

Field: 40 Position: 92-94 Format: I3

CONTENT	VALUE	SAMPLE	WEIGHTED
MEAN		73.17	72.73
MINIMUM	37		
MAXIMUM	121		
RANGE	84	19467	17861937
Variable unknown	997 M	3034	0
Recoded missing	998 M	333	422185
Not stated/refused	999 M	295	549095

WEIGHT VARIABLE: PWGTC

COVERAGE:

Clinic sample - all subjects.

QUESTION TEXT:

Weight in kilograms in clinic.

DETAILED DESCRIPTION OF VARIABLES

WGTC CLINIC: WEIGHT IN KILOGRAMS (continued)

COMMENTS:

Weight was measured using beam-balances standardized scales (Continental Scale Works, #131,689, Chicago, USA) with the exception of some regions in Ontario. Subjects were dressed in normal indoor clothing without shoes.

Values were recoded missing (code 998) for extreme 0.5% of subjects within each province. Where either HGTC or WGTC were recoded missing (code 998), both were recoded as missing, but the BMI was not altered.

Values greater than 120 were capped at 121 unless already coded 998 because of extreme height or weight.

If subject was pregnant at clinic weighing, WGTC was coded as 999 and WGT recorded in the questionnaire was used to calculate the BMI; Nova Scotia excluded pregnant subjects from their survey.

BMI BODY MASS INDEX

Field: 41 Position: 95-98 Format: F4.1

CONTENT	VALUE	SAMPLE	WEIGHTED
MEAN		25.68	25.35
MINIMUM	17.0		
MAXIMUM	42.9		
RANGE	25.9	19841	18226718
Variable unknown	999.7 M	3034	0
Not stated/refused	999.9 M	254	606499

WEIGHT VARIABLE: PWGTC

SOURCE:

$$WGTC / ((HGTC/100) * (HGTC/100))$$

COVERAGE:

Clinic sample - all subjects.

QUESTION TEXT:

Body mass index.

COMMENTS:

Calculated from $(WGTC / ((HGTC/100)**2))$; if subject was pregnant WGT is used in place of WGTC. If either height or weight were capped then BMI was recalculated using the capped values. Also, if BMI was <17.0 or >42.9 then it was recoded to 17.0 and 42.9 respectively.

BPRXAND2 BP TREATMENT NOW: MEDICINE AND OTHER?

Field: 103 Position: 194 Format: I1

CONTENT	CODE	SAMPLE	WEIGHTED
Mentioned	1	31	46655
Not mentioned	2	535	229443
Not applicable	0 M	22563	18553105

WEIGHT VARIABLE: PWGTQ

COVERAGE:

Home interview sample - subjects where BPPRG2 = 1.

QUESTION TEXT:

What program are you now following for your high blood pressure? Medicine & some other treatment.

DETAILED DESCRIPTION OF VARIABLES

BPRXAND2 BP TREATMENT NOW: MEDICINE AND OTHER? (continued)

COMMENTS:

Completion of this part of the question was not consistent. Individuals could have mentioned 'medication' and then 'watch weight' and these responses could have been entered as either 'medication' plus 'watch weight' or as 'medicine and other' and 'watch weight'. Analysts should watch for this when using this variable together with others in the question on current BP treatment.

DETAILED DESCRIPTION OF VARIABLES

ALCMTH MONTHLY FREQ OF ALC DRINKS IN PAST YEAR (continued)

COVERAGE:

Home interview sample - subjects where ALCEVER = 1 and ALC12MTH = 1. Information deleted for BC, ALB, QUE, and ONT due to potential differences in the interpretation of the question.

QUESTION TEXT:

How often, on the average, did you have an alcoholic drink by week or month in the past 12 months?

COMMENTS:

Responses should have been the number of days when alcoholic drinks were taken, and responses for ALCNUM should be the number of drinks on those days. So taking 1 drink at lunch time and 1 in the evening on the same day should have counted as 1 day with 2 drinks (not 2 occasions with 1 drink at each). For the questionable provinces responses in ALCMTH included values >31 so the question may have been understood as 'number of occasions' rather than 'number of days'.

ALCNUM AVERAGE DAILY ALCOHOL CONSUMPTION
