The Clinical Epidemiology Unit of the Discipline of Medicine, Memorial University is inviting applications for a Per-Course Appointment in:

**Clinical Epidemiology**  
**MED 6262 – Introduction to Biostatistics**  
*(On Campus Daytime Course September 2017)*

The successful candidate will be expected to prepare and deliver the course content including providing students with knowledge of Biostatistical concepts and the skills to apply them in clinical research.

The appointment will be for a per-course appointment and salary will be $5000 (in accordance with the MUN-LUMUN Collective Agreement).

A Ph.D. in a relevant specialty or an MD with a Master’s degree in Statistics is required. The candidate should possess some research experience. Experience developing, teaching and supervising/co-supervising graduate level students is helpful, along with experience in applied health research and epidemiological methods. The candidate should possess strong oral and, written communication skills.

Applications should be addressed to: Dr. Cathy Vardy, Vice Dean, Faculty of Medicine, Memorial University of Newfoundland, Health Sciences Centre, 300 Prince Philip Drive, St. John’s, NL A1B 3V6. Applications can be submitted electronically to Joan Fillier at joan.fillier@med.mun.ca

The application package should include a cover letter highlighting qualifications and interests relating to this position, a *curriculum vitae*, and contact details of three referees. Please quote Per-Course Appointment – MED 6262 in the subject line.

The closing date for applications is **July 1, 2017**. Appointment will commence September 2017.

The Faculty of Medicine is located in the Craig Dobbin Genomics Research Centre, part of the Health Sciences Complex on the campus of Memorial University. This facility also houses the Schools of Pharmacy and Nursing, the Health Science Library, the General Hospital, the H. Bliss Murphy Centre, and the Janeway Children’s Hospital. The integrated complex has allowed for close working relationships in both research and teaching among the Faculties of Medicine and the Schools of Nursing and Pharmacy.
The Clinical Epidemiology Unit is housed within the Discipline of Medicine. In addition to seventeen core faculty, Clinical Epidemiology has joint/cross appointments with Family Medicine, Psychiatry, Genetics, Nursing, Pharmacy, Engineering and Eastern Health.

Memorial University is one of the largest universities in Atlantic Canada. As the province’s only university, Memorial plays an integral role in the education and cultural life of Newfoundland and Labrador. Offering diverse undergraduate and graduate programs to almost 18,000 students, Memorial provides a distinctive and stimulating environment for learning. St. John’s is a safe, friendly city with great historic charm, a vibrant cultural life, and easy access to a wide range of outdoor activities.

Memorial University is committed to employment equity and encourages applications from qualified women and men, visible minorities, aboriginal people, and persons with disabilities. All qualified candidates are encouraged to apply; however, Canadian citizens and permanent residents will be given priority.
