Biographical sketch:

Albert Reginald Cox (1928-), physician, Dean of Medicine and Vice-President Academic, Memorial University of Newfoundland, was born in Victoria, British Columbia on 18 April 1928, the son of Reginald Herbert Cox and Marie Christina Cox (nee Fraser). In May 1954, Dr. Cox married Margaret Dobson at Vancouver, British Columbia and they have three children: Susan M., David J. and Steven F.

Dr. Cox was educated at Victoria High School and then attended Victoria College, Victoria, British Columbia (1946–1948). Dr. Cox earned a BA in 1950 and a MD in 1954 from the University of British Columbia, Vancouver, British Columbia. Both Dr. Cox and his wife were in the first class (1950) of Medical Studies at the newly opened Faculty of Medicine, UBC. Margaret Cox earned her MD there in 1955.

After graduating from Medical School, Dr. Cox served his internship at the Vancouver General Hospital (1954-1955), and then worked a residency there (1955-1959). Dr. Cox was certified as Licentiate, Medical Council of Canada (LMCC) in 1955. He also received a licensure for the State of Washington (1959-1964), British Columbia (1961-1988), and Newfoundland (1969-1991). From 1955 to 1959, he served in the Armed Forces, holding the position of Flight Lieutenant (Medical Officer), Royal Canadian Air Force (Auxiliary). Dr. Cox was British Council Scholar, London Postgraduate Medical Program (Hammersmith Hospital), National Heart Hospital (September 1956 - June 1957). Continuing his education, Dr. Cox pursued Fellowship Training in Pharmacology and Cardiology at the University of Washington, Seattle (1959-1961).

Dr. Cox completed several special programs, including Teacher Training Program (6 weeks), Faculty of Medicine, University of Illinois (1965), and Epidemiology and Prevention of Cardiovascular Disease, American Heart Association (26 July – 8 August 1987). While on sabbatical, Dr. Cox was Special Student, Health Policy and Management, Harvard School of Public Health (September 1987 - June 1988), Visitor, Faculty of Medicine, Hobarth University, Tasmania (June 1988), Visiting Professor, University of Melbourne, Australia (July 1988), and Visitor, Faculty of Medicine, Flinders University, Australia (July 1988). Dr. Cox' studies were paralleled by several academic publications throughout his career.

Over the years, Dr. Cox held a variety of academic and professional positions and appointments including: Instructor, followed by Assistant Professor, and then Associate Professor, Department of Medicine, University of British Columbia (1962-1969); Professor and Chairman of Medicine, Memorial University of Newfoundland (1969-1974); Associate Dean for Clinical Affairs, Faculty of Medicine, Memorial University of Newfoundland (1972-1974); Dean of Medicine, Memorial University of Newfoundland (1974-1987); Vice-President, Health Sciences and Professional

Schools, and Vice-President Academic (Acting), Memorial University of Newfoundland (1988-1990), and Vice-President Academic, Memorial University of Newfoundland (1990-1991).

Dr. Cox held the following hospital appointments: Attending Staff, Vancouver General Hospital, Vancouver, British Columbia (1962-1969); Active Staff, General Hospital, St. John's, Newfoundland (1969-1980); Chairman of Medicine, General Hospital, St. John's, Newfoundland (1969-1974); Chief, Division of Cardiology, General Hospital, St. John's, Newfoundland (1971-1974); Senior Consultant (Medicine), St. Clare's Mercy Hospital, Grace General Hospital and Janeway Child Health Centre, St. John's, Newfoundland (1969-1974); Executive Medical Advisory Committee, General Hospital, St. John's, Newfoundland (1970-1974); Honorary Consultant, St. Clare's Mercy Hospital, Grace General Hospital, Janeway Child Health Centre, St. John's, Newfoundland (1975-1991); and Consulting Staff, General Hospital, St. John's, Newfoundland (1981-1991).

Dr. Cox received many awards and distinctions throughout his career, including the following: Horner Prize and Gold Medal for highest standing in subject of Medicine (1954); Mead Johnson Fellowship of American College of Physicians (1955); General Lifeco Hawthorne K. Dent Fellowship in Cardiology (1959-1961); Canadian Life Insurance Medical Fellowship (1966-1970); Dr. Wallace Wilson Leadership Award, Medical Alumni Association, University of British Columbia (1986); Honorary Membership, College of Family Physicians of Canada (1987); Member, Order of Canada (1989); and 75th Anniversary Alumnus Award, University of British Columbia (Membership), (1954-1990).

Dr. Cox served on several Memorial University committees including: Chairman, Undergraduate Curriculum Committee, Faculty of Medicine (1969-1973); Chairman, Human Experimentation Committee (1969-1971); Planning and Development Committee for the Health Sciences Centre (1971-1978); Organization and Management Committee for the Health Sciences Centre (1974-1975); Integrating and Co-ordinating Committee of the Health Sciences Centre (1975-1987); Health Sciences Complex Committee (1975-1991); Joint Liaison Committees, University and Affiliated Teaching Hospitals (1974-1987); University Senate (1974-1991); Chairman, Governing Committee for the Labrador Institute of Northern Studies (1989-1991); Advisory Committee, Gerontology Centre (1989-1991); and Advisory Board, Faculty of Business Administration (1989-1991). Dr. Cox also served on several University of British Columbia committees (1963-1969).

Dr. Cox played an active role on several other committees and boards in Newfoundland, including: Board of Newfoundland and Labrador Computer Services, Ltd. (1975-1977); Board of International Grenfell Association (1973-1983); Member, St. John's Hospital Council (1984-1991); Board of Directors, General Hospital, St. John's (1984-1987); Medical Advisory Committee, Newfoundland Division, Canadian Heart Foundation (1987); Medical Advisory Committee, Newfoundland Cancer Treatment and Research Foundation (1987); and Board of Management, Agnes Pratt Home (1989-1991). Dr. Cox was also on the Executive, Medical Alumni Division University of British Columbia Alumni Association (1992-1997). Dr. Cox, throughout his career, was also on several committees in other provinces as well as on a national level.

Dr. Cox has been a member of several professional and learned societies. These include: Alpha Omega Honour Medical Society, University of British Columbia (1953-1992) and counselor (1966-1969); Fellow, Royal College Physicians and Surgeons of Canada (FRCP), (1959 - present); Sigma Xi (1959-1992); Canadian Medical Association (1961-1992); British Columbia Medical Association (1961-1969); Canadian Cardiovascular Society (1962 - present); Fellow, American College of Physicians (FACP), (1968 - present); American Heart Association (1967-1992); Fellow, American College of Cardiology (FACC), (1968 - present); Newfoundland Medical Association (1969 - present); Canadian Society for Clinical Investigation (1970-1992); Association of Canadian Medical Colleges (Council), (1976-1991); and Canadian Intern Matching Service (1980-1984).

Dr. Cox retired in October 1991. In his spare time, Dr. Cox is interested in horticulture, specifically organic farming of vegetables and major crops of garlic; photography; and the Sylvan Pastoral Charge, United Church of Canada. Dr. and Dr. Cox presently reside in British Columbia, Canada.

Custodial history:

The personal papers and teaching materials of Dr. A.R. Cox were retained in the Dr. Kenneth B. Roberts Historical Collection in the Health Sciences Library after Dr. Cox left the Faculty of Medicine in 1987. They were found in the Historical Collection and transferred to the Faculty of Medicine Founders' Archive in October of 1999 by Dr. John Crellin, the John Clinch Professor of Medical History. Dr. Cox donated further textual material and audio cassettes in January 2001. In May 2002, Dr. Cox donated additional textual material, slides and photographs to the archive. In 2006, further papers (28 boxes) relating to Dr. Cox as Dean of the Faculty of Medicine were transferred from the university archive.

Supplied title is based on the contents of the fonds.

Provenance:

Cox, Albert R.

Arrangement:

When the papers of Dr. A.R. Cox arrived at the Faculty of Medicine Founders' Archive, there was some degree of order present. Files were clearly labelled with original titles used in earlier office procedures. This formed the framework for further arrangement and description of the collection. When the 2006 accrual was added to the collection, some reference numbers to previously arranged files were changed. The previous reference number is noted in the finding aid where applicable.

Restrictions on access:

There are some restrictions on the use of or access to the material in this *fonds*. Please consult with the archivist for access to restricted materials.

Terms governing use and reproduction:

Material in this fonds is protected by copyright. Copyright regulations state that any copy of archival material is to be used solely for **research** or **private study**. Any use of copied material for any other purpose may require the authorization of the copyright owner. It is the responsibility of the researcher to obtain copyright clearance from the copyright holder(s).

Copyright regulations require that records be kept of all copies made of material deposited prior to September 1, 1999, and that these records may be viewed by the author of the material, the copyright owner, or representatives of either.

Series and Sub-series Description

1.0 Correspondence and Meeting Minutes, 1977-1978

Scope and Content: Series consists of correspondence and minutes from committees at the Faculty of Medicine, and the Health Sciences Complex. Administrative group meetings were chaired by the Dean and were weekly meetings to keep key people apprised of activities at the Faculty of Medicine. This group held special meetings in 1984 to discuss trends and projections for the Medical School. The Integrating and Coordinating Committee (ICC) was an important group from the early days of the medical school, right through to 1992. The ICC was created on the recommendation of an earlier committee: the Organisation and Management Committee (1973-1974). This group analysed the organisational structure and relationships between the General Hospital and MUN Health Sciences, and other components of the university. The ICC was an Executive level committee with membership including the Chief Executive Officer of the General Hospital, the Chief of Medical Staff, the Dean of Medicine and various resource personnel, as needed. The group managed the complications of such things as: shared service agreements between the hospital and the university; advised on any joint programs; made assessments and recommendations for physical space allocation; and managed the Industrial Service Unit. The ICC delegated much of its work in specific areas to sub committees.

The minute books (1967-1969) of the department of Medicine for the St. John's General Hospital are included as Dr. Cox was a member of this department. These minute books include regular reports of patient deaths within the department. Dr. Cox was also part of the Memorial University Research Unit from 1969-1974.

Related material: Minutes of the ICC for the years 1974-1979 can be found in Office of the Dean fonds, COLL-029, and for the years 1979-1992, in the Telemedicine fonds, COLL-041. Further records and reports of the Organisation and Management committee can be found in Office of the Dean, COLL-029.

Note: Series 1.01 contains reports of patient admissions and deaths within the department of medicine. These patient records are **restricted** until 50 years after the death of the patient.

5.0 Information Memoranda and Division Newsletters, 1974-1988

Scope and Content: Shortly after the appointment of Dr. Cox as Dean of Medicine, Information Memoranda were circulated to all faculty and staff, commencing in August 1974. The memoranda were created to be both a recognition and record of new appointments, promotions and resignations of the rapidly growing medical school. In 1989, *MUNMED* replaced the Information Memorandum, which continues today.

7.0 Accreditation of the Faculty of Medicine, 1969-1987

Scope and Content: Series consists of papers relating to accreditation of the Medical School by the Liaison Committee on Medical Education (LCME), a national body responsible for accreditation of all Schools of Medicine awarding an M.D. Degree. Papers relating to accreditation by the Royal College of Physicians and Surgeons 1970-1987 are also included in this series. The process for accreditation by LCME included a self-assessment to be undertaken prior the official visit by the LCME. The self-assessment required completion of a database of information in a format provided by the LCME. A task force was assigned for each of the departments within the medical school consisting of subject matter experts. The task force would evaluate the activities of departments according to LCME requirements.

8.0 Association of Canadian Medical Colleges, 1972-1980

Scope and Content: The Association of Canadian Medical Colleges was founded in 1943, and Dr. Cox was a member of the executive from 1976-1977, Vice President from 1978-1979 and President of the Association from 1979-1980. During Dr. Cox's presidency, the Committee on Accreditation of Canadian Medical Schools was established. Up to that time medical schools in Canada were accredited by the U.S.-based Liaison Committee on Medical Education. With the

advent of medicare, the medical education system in Canada was geared to meet social requirements that were significantly different from those in the United States. While designed to take these social requirements into account, the accreditation committee still adopted many procedures from its American counterpart and was established in such a way that Canadian schools receive accreditation from both bodies. ACMC, now known as the Association of Faculties of Medicine of Canada (AFMC), gathered information to identify educational, training and practice trends for manpower planning. The ACMC also managed the Canadian Intern Matching Service and produced a newsletter: *FORUM*.

Sub-series 8.09: Working Party, Department of National Health and Welfare 'Problems Peculiar to Teaching Hospitals', 1972 was a group of individuals, including Dr. Cox, tasked to identify the specific needs of teaching hospitals. Several reports from ACMC were commissioned by this group.

9.0 Canadian Medical Association, 1964, 1974, 1983-1986

Scope and Content: In August 1981, a meeting of the CMA General Council resolved to set up a task force to review Family Practice training in Canada. The task force visited Newfoundland in 1983. In 1985, Dr. Cox led an ad hoc committee on Family Practice Training. Series consists of documents pertaining to the Newfoundland perspective on Family Practice Education from 1983, as well meetings and background materials for the 1985 committee.

10.0 Day Planners, 1976-1985

Scope and Content: Series consists of appointment books from 1976-1985. For several years there are multiple appointment books. Although they are not clearly labelled as such, one copy appears to be Dr. Cox's personal day planner, and another almost identical copy belongs to the Dean's office. For some years (1977, 1978, 1980) there is a copy of what is most likely the appointment book of the Dean's Secretary.

17.0 Nurse Practitioners, 1969-1972

Scope and Content: Series contains reference material and reports on the evolution of the role of the Nurse Practitioner. The role developed in response to rising public expectations of health care and, combined with the removal of financial barriers to such care, rising demand for health services. The papers in this series consider not only the role and expectation of a nurse practitioner, but also the requirements of educational programmes to train them. While the series contains material from 1968 through to 1972, the majority of work on the subject took place in 1972 when the Committee on Nurse Practitioners presented a report to the Department of Health and Welfare (see 17.01.037 for the report). Memorial University's representative on this committee was Boyd Suttie, Associate Professor of Health Care Delivery at the Faculty of Medicine.
