

A Guide to the
Faculty of Medicine Information Services Collection

COLL - 026

Arranged & Described by

Stephanie Harlick

**Faculty of Medicine Founders' Archive
Health Sciences Library
4 December 2003**

Title: Faculty of Medicine Information Services Collection

Dates: 2001-2003

Extent: 5 cm of textual records

Administrative History:

Sharon Gray, the Information Officer for the Faculty of Medicine, collects material relevant to the Faculty of Medicine at Memorial of University. She consults with a wide variety of sources within the province of Newfoundland and Labrador and also across. The collection contributes to the public relations aspect of the Faculty of Medicine, and the role it plays in the provincial and national health care scene.

Custodial history:

The materials found in this collection were stored at HSIMS under the care and direction of Sharon Gray. It was transferred to the Founders' Archive in November 2003.

Scope and content:

Fonds consists of material (mostly newspaper articles) relating to the planning, construction, staffing, and administration of the Medical School at Memorial University and the Health Sciences Centre in which it operates. There are photographs of the first staff members and the first medical students to work at the School. Fonds is composed of the following series:

1. Newspaper Articles, 2001-2003

Source of title:

Title based on contents of the fonds.

Acquisition:

The Faculty of Medicine Information Services Collection was created and maintained by Ms. Sharon Gray, Information Officer, Faculty of Medicine, who deposited the material in the Faculty of Medicine Founders' Archive in November, 2003. Work was begun on this collection in December, 2003, and was completed in.

Arrangement:

When the material arrived at the Founders' Archive, there was some degree of order present.

Restrictions:

There are no restrictions on access to or use of this collection. However, all materials in this collection are protected by copyright. It is the responsibility of the researcher to obtain copyright clearance from the copyright holder(s).

Accruals:

Further articles are expected in the future.

Finding Aid:

File list is available. (Item level control)

Notes:

In the accompanying file list, some abbreviations are used for certain publications in which the articles originally appeared. Please see the last page of the file list for explanations of these terms and a list of all publications from which the articles were taken.

Title: Starting on the right foot

Photograph: Following a medical school tradition, one brave group of the Class of 2005 pied the dean during a scavenger hunt Aug. 23, part of orientation week activities for new medical students. Dr. Ian Bowmer endured the prank with good grace, taking time first to cover himself with a protective garbage bag. Jennifer Lewis (R) did the honours while Rahul Kavathekar and Sauna Drover (L) enjoyed the fun. The antic gained 30 points for the group's total score, which also included activities such as kissing St. John's mayor Andy Wells. Classes for pre-clerkship and third-year clerkship medical students began Monday Aug. 27.
