

Pending Courses – Supplemental

Instructions:

This file is required only if you will be completing courses at any level at any post-secondary institution from September 2022 – August 2023. If this does not apply to you, submit your application without this document and leave the upload field in the application empty.

If you will be completing the final year of your undergraduate degree and it is your first post-secondary degree, this is a required form.

Complete the table on the following page to indicate the courses you intend to complete until August 2023. These courses need not be finalized at this time but you should be able to indicate reliably the number and type of courses you will be completing over the next year.
