

## Hey There!

---

Are you interested in pursuing an exciting career as a health professional? As a high school student, it is not too early to start thinking about your future career path. Creating a specific goal beyond high school can be challenging without the necessary information to make an informed decision. Let us help you improve your knowledge in areas including admission requirements, realistic career expectations in the health sciences, and the vast opportunities available in our province.

## What is MedQuest Virtual?

---

MedQuest Virtual is an exciting, career-oriented two-day virtual event for all students in grades 10-12 in Newfoundland and Labrador interested in careers in the health sciences. Students will be introduced to many health professions such as medicine, nursing, pharmacy, human recreation and kinetics, social work and others. These health careers and special topics will be presented through lectures, guest speakers, and virtual tours of various health facilities.

## Program Objectives:

---

Upon completion of MedQuest Virtual, learners will be able to:

- Identify the MUN entry requirements to programs and various career options in health sciences professions including: medicine, nursing, pharmacy, human kinetics and recreation, social work and others;
- Explore examples of career paths practicing professionals choose in the health sciences, along with their scope of practice;
- Describe a typical "day in the life" of a learner within the various programs;
- Discuss interprofessional and collaborative learning models while studying and training to be a health sciences professional;
- Describe the vision of Indigenization at Memorial University including services available through the Office of Indigenous Affairs;
- Explore resources provided by the Student Wellness and Counselling Centre / Student Life including learner accommodations for Memorial University students.

### When?

MedQuest Virtual will be a two day event held on **Tuesday, July 26th and Wednesday, July 27th 9:00AM – 3:00PM**

### Where?

The event will be held online via WebEx. Learners will be emailed a WebEx link to participate in the webinar.
